Waves Worksheet

Name: _____

1. Name the three parts of the wave shown in diagram by arrow.

2. Explain in sentences beside each diagram what is happening.

3. Name the two arrow areas of this wave.

SEPARATING MIXTURES WORKSHEET

8. What method would you use to separate the following mixture?

- Sugar from a sugar solution

- A mixture of two solids which have widely different solubility in water

- Rice grains which have accidentally been mixed with flour

- A mixture of two liquids which have widely different boiling points

- Pure water from salty water

- A pure solid from a concentrated solution of its salt

- Salt from salty water

- The component colours of a leaf

- Clear water from muddy water

- An aqueous solution of lead II and copper II ions

- A mixture of sawdust and sand

1. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

with adenine (A) and thymine (T) or with adenine (A) and uracil (U) with adenine (A) and uracil (U) with adenine (A) and cytosine (C) with adenine (A) and cytosine (C)

2. (1) In the following sequence of bases, circle the one with the highest melting point. (Circle one base in each pair.)

3. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

4. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

5. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

6. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

7. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

8. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

9. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

10. (1) For each pair of complementary base pairs, circle the one with the highest melting point. (Circle one base in each pair.)

DNA Structure and Replication Review

DNA: The Molecules of Heredity

1. A nucleotide is made of three parts: a

_____ group, a five carbon _____ and a nitrogen _____.

_____ containing _____.

2. In a single strand of DNA, the phosphate group bonds to the _____ of the next group.

3. Chargaff's rule stated that the DNA of any species contains equal amounts of _____.

_____ and _____.

These will make a great hand-on activity for them. The pages can be cut into separate strips or left intact. Each digraph has a separate worksheet at different skill levels. Source: www.liveworksheets.com

Clear water from a mixture containing insoluble solids. 6 Postcard Templates - 3 Versions *Version # 1-Both the back and front are on one This bundle includes digital products to cover all of the expectations for: The 2020 Grade 3 Ontario curriculum. Students will love this engaging and differentiated unit that explains what pure substances and mixtures are, where they are found, and their functions.
